# KAMBAKO-FORCE MOZAMBIQUE

## CONSERVATION FORCE

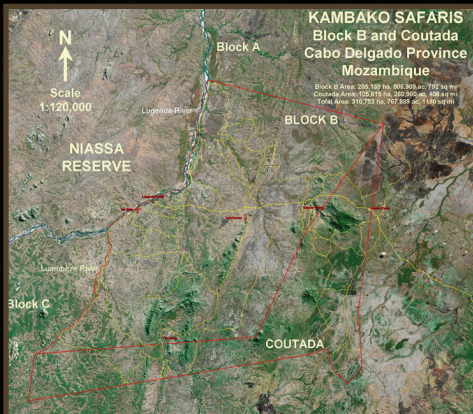

## COMMUNITY DEVELOPMENT

*Diesel drive  
corn/maize  
grinder*

Kambako Safaris has given wildlife value to local communities by providing radios, installing solar panels, installing diesel maize grinder, drilling bore holes, constructing a police building, providing annual medical care, and clinic days to community people.

The Niassa Reserve is the largest reserve in Mozambique. Kambako Safaris is made up of 3,000 sq km in Block B of the Reserve and holds the adjacent Coutada. This is one of the most pristine habitats in the world and part of a grand conservation experiment.

## CONSERVATION

Kambako Safaris partners with lion specialists to study and manage the local lion and leopard population. We are partners in Savannas Forever and with Conservation Force. Savannas Forever is helping conserve the African lion. Conservation Force has ongoing lion, leopard, and elephant projects in Kambako's areas.

*Surveying and aging of leopards and lions*
